## **DETAILED ACTION**

### ***Response to Amendment***

1. Applicant's amendment filed 22 November 2005 amends claims 1, 56, and 70.

Applicant's amendment has been fully considered and is entered.

### ***Response to Arguments***

2. Applicant's arguments, filed 22 November 2005, with respect to the amended claim language has been fully considered and are persuasive. The claim rejections in view of Alattar have been withdrawn.

### ***Allowable Subject Matter***

3. Claims 1-17, 56-61, and 70 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art does not suggest or make obvious a watermarking method that generates an element, which is associated with a user from a watermark, which is not associated with a user. Alattar discloses separate embodiments where watermarks can be generated with user information and without user information, but does not disclose or make obvious the generation of both elements or the embedding of a watermark, which is not associated with a user, without embedding the element that contains user information.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
